Q: What were the strengths of this course and/or this instructor?

- 1
- Passion and creativity. Love the fact that he brings other tech inspirations other than just React and Firebase to the course.
- 2
- Participation
- 3
- He's the best
- 4
- Excellent interaction in class and very motivated to teach the subject.
- 5
- This instructor knows a lot and he can extend other points of knowledge explained through one small aspect.
- 6
- I love seeing professor John teaching with enthusiasm, and he's always looking for new things happening in the CS field. This helps me learn a lot.
- 7
- Projects
- 8
- The atmosphere in class is quite intriguing.
- 9
- Very friendly and funny!
- 10
- Classes are always impressive and full of knowledge. Professor can answer any questions while giving sample code.
- 11
- Extremely enthusiastic and motivates the students to push themselves to learn more. Can explain complex concepts in simple terms with plenty of real-world examples.

Q: What could the instructor do to make this course better?

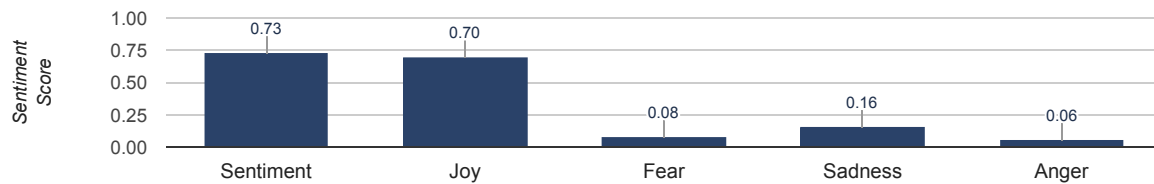

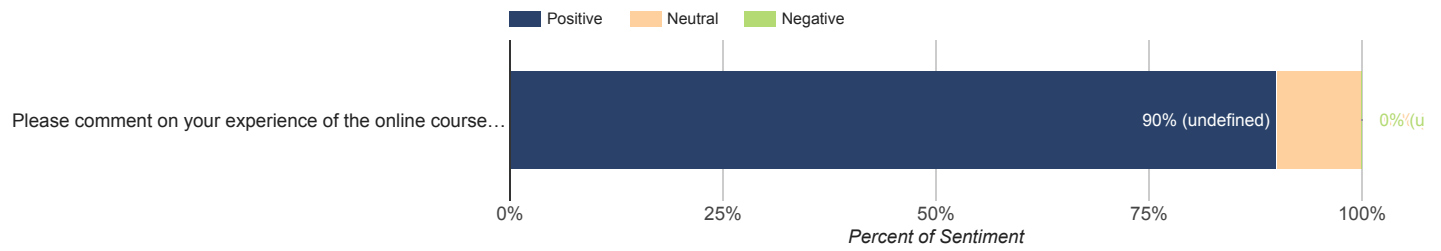

- 1
- UPDATE HOMEWORK RUBRIC ON TIME!
- 2
- Make a clearer syllabus in homework session.
- 3
- NA
- 4
- Nothing. Prof John is the best !!
- 5
- i have no idea. i think current is good. Maybe edit the assignment ahead of time
- 6
- Maybe it would be better to put things we mentioned in classes in the Canvas modules. Every week we have plenty of links to the interesting resources published on slack, but sometimes I get lost in the message stream and forget to read them all.
- 7
- It's interesting to learn about PDP on a software hardware platform instead of just the web. This provides more opportunities for students to apply for jobs in line with market needs.
- 8
- I think we spent a solid amount of time learning a programming language instead of the different programming paradigms, this is something that could be improved.
- 9
- Professor is constantly changing, honestly I enjoy this uncertainty in classroom as well, except for the implicitness of assignments requirements. I hope I can learn various aspects through changes in class, while knowing the exact expectation of assignments, so I can focus on what should I do.
- 10
- Maybe can include some pre-recorded tutorials to watch before the class.

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

- 1
- Introduce more of new AI tools like transformer.js and more of how to build a full stack web like using Firebase with Vite
- 2
- His profound knowledge in the subject
- 3
- I think the professor promoted very inclusive learning, nothing to improve anywhere.
- 4
- i think now he is good for me.
- 5
- Professor John introduced many things that are used very often in the CS field that I'm not very familiar with, and this really excites me. He gives us an insight of what the thing is trying to do and how it solves the problem.
- 6
- some pdp on the software of hardware platform maybe
- 7
- Prof John is very funny and engaging but he often steers off topic, which is okay in most cases, but this is the only thing that he can maybe work on. The course overall was great!
- 8
- NaN.
- 9
- Always will explain a previously taught concept again if anyone has questions.
