Q: What were the strengths of this course and/or this instructor?

- 1 He has a lot passion in teaching
- 2 Prof. Lee is always attentive and enthusiastic to teach about algorithms, and covers the points in Introduction to Algorithms in great detail.
- 3 Lecture
Atmosphere in class
- 4 Clear demonstration and useful assignments.
- 5 Covered useful algorithms and concepts
- 6 None
- 7 I can feel the professor's strong passion for algorithms, and his kindness in helping students when we have any questions.
- 8 The professor was very knowledgeable about the subject and displayed an enthusiasm to teach.
- 9 Very kind and responsible

Q: What could the instructor do to make this course better?

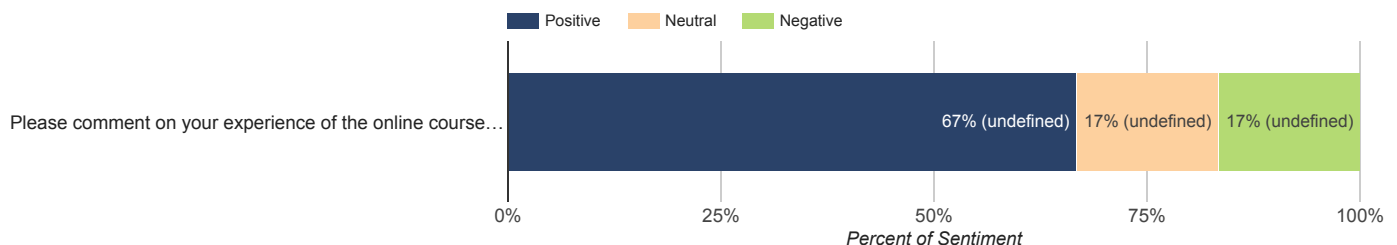

- 1 walk through the assignments and explain
- 2 They could add more LeetCode questions to the classroom.
- 3 Bridge the gap between exam and class material better
- 4 post notes
- 5 None
- 6 Firstly, it would be good to create easy-to-understand lecture files, not just copy the CLRS, for those who don't have experience with CS, it's tough to understand the original textbook. Secondly, I would like you to get prepared before teaching. We can feel your passion for algorithms, but I think the teaching method doesn't fit most of us. Giving more simple or interesting examples and teaching step by step would be great.
- 7 Perhaps providing some alternative learning resources besides the textbook as the writing in the book was quite complex.
- 8 A smaller percentage of midterms and finals would be better.

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

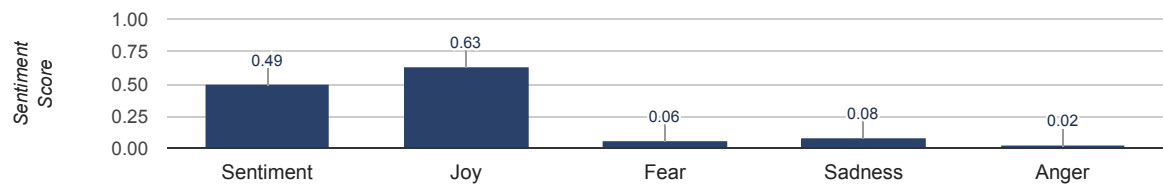

- 1 explain the codes in the assignments
- 2 None
- 3 Professor is enthusiastic and cheerful in class
- 4 could talk more about coding since writing code is a huge part of tests
- 5 None
- 6 The professor was able to answer questions clearly and did a good job of showing how they got to their answer.
- 7 Teaching content that is more relevant and practical would be better

Student Self-Assessment of their Effort to Achieve Course Outcomes (8 comments)

Q: What I could have done to make this course better for myself.

- 1 write more codes
- 2 I will summarize the knowledge after the class and then do more Leetcode questions.
- 3 Learned math better in university
- 4 post class notes on canvas
- 5 Spend more time on Leetcode
- 6 I would read the lecture file carefully and join the office-hour of the professor
- 7 I could have prepared more by brushing up on math and some other prerequisite skills.
- 8 The homework and quizzes would have been better with more explanation.
