3 The course is onground. ★★☆☆☆

4 I found the instructor for the Web Development course to be excellent. The content was thorough, covering everything from basic HTML and CSS to more advanced frameworks like React. I learned a great deal and was able to apply this knowledge in my final project. ★★★★★

5 Great. ★★★★★

6 Professor has been very friendly and keen to teach about class materials and help students with various questions, which brought a wonderful experience of learning web development. ★★★★★

Student Self-Assessment of their Effort to Achieve Course Outcomes (5 comments)

Q: What I could have done to make this course better for myself.

1 The actual web design requires more learning outside of class time and i could spend more time connecting outside resources with class learning materials to acquire more knowledge in this class.

2 do more preclass reading

3 Take more effort on coding actually instead of reading material. It helps understanding concepts when actually taking a try.

4 Start earlier.

5 Could be more challenging and also with some modern css frameworks.
