Objectives:

Enrollment: **45**Responses Incl Declines: **12**Declines: **0**

Instructor Related Questions: Anurag Bhardwaj (16 comments)

Q: What were the strengths of this course and/or this instructor?

- 1 Dr. Bhardwaj takes good care of all his students. We love the pizza and the review before the final exam.
- 2 The instructor is a funny guy and so down to earth. He made the lesson fun and engaging.
- 3 The instructor explains each chapter very clearly and transforms complex issues into very vivid explanations.
- 4 Just fine. Hard to say.
- 5 Brings a lot of industry expertise to the classroom, has a lot of enthusiasm for the course as a whole and for certain topics. Willing to work with students to clear up misunderstandings and difficult concepts. Very fair grader.

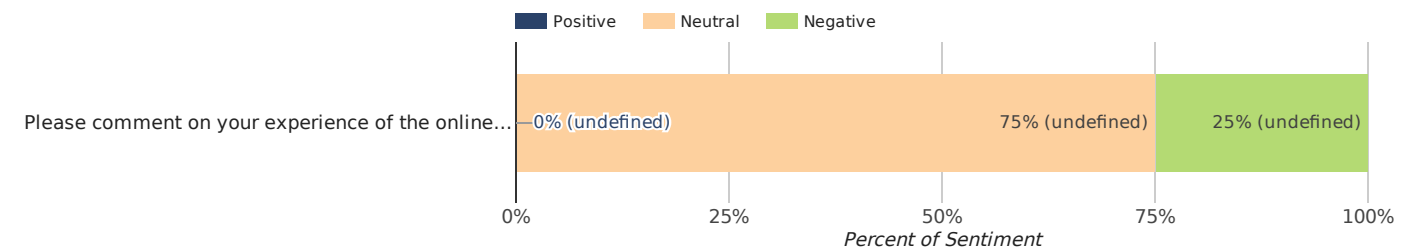

Q: What could the instructor do to make this course better?

- 1 Forming or joining study groups to collaborate and learn from classmates.
- 2 Increase the readability of the pseudo-codes, as it is tough to understand. And provide a more detailed code walkthrough
- 3 Not very satisfied with the course
First the accent is hard to understand
Then the material and the way the teacher teach in class not very comprehensive and enlightening
- 4 More organized with lectures. Some topic in exam did not teach in the lectures.
- 5 The teaching of the class is a little bit shallow on the algorithms.
- 6 Teach harder. Spend more time and energy.
- 7 Sometimes the homework assignments did not clearly connect to the course material (seemingly pulled from other courses) and did not contribute to understanding. Would have appreciated more example problems to work on to prepare for exams and to develop deeper understanding of key concepts.

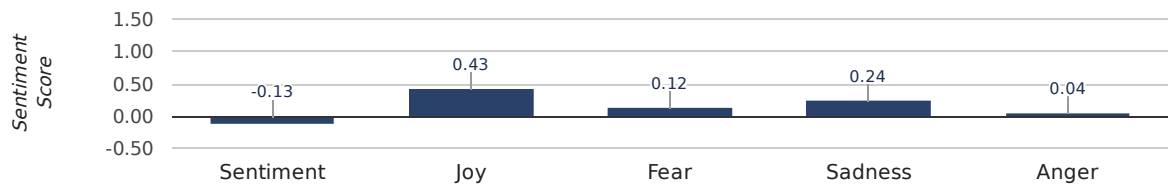

Q: Please expand on the instructor's strengths and/or areas for improvement in facilitating inclusive learning.

- 1 I like how Dr. Bhardwaj engages us actively in class discussions and activities to deepen our understanding of the concepts.
- 2 PIZZA! PIZZA! PIZZA!
- 3 Teach harder.
- 4 Strengths: willing to help any student who has a question regarding class material, willing to accept when mistakes are made and correct them on the spot.

Questions to Assess Students' Online Experience (4 comments)

Q: Please comment on your experience of the online course environment in the open-ended text box.

Q: Please comment on your experience of the online course environment in the open-ended text box.

- 1 Online materials could be updated. The B tree slides seem outdated ★★☆☆☆
- 2 Canvas assignments were clearly organized. ★★☆☆☆
- 3 This is an in-person class ★★☆☆☆
- 4 Hard to say. ★★☆☆☆

Student Self-Assessment of their Effort to Achieve Course Outcomes (4 comments)

Q: What I could have done to make this course better for myself.

- 1 Read materials before class
- 2 I could have done more LeetCode problems and understood/familiarize the most common algorithms before taking this course
- 3 Since I have a weak foundation, I should actually do something besides homework to reinforce my understanding.
- 4 Teaching harder.
